

Dear ladies, gents and your wonderful communities,

I was going to put an Easter message together but then I got an email from Kirt Bromley who is Vice international coordinator for America and Canada. He covers thousands of miles.

Kirt and his wife Hilda (who is from Ghana) go to Ghana for 3 months each year they have set up and opened 20 much needed libraries. They also do so much more as you see with glasses. Hilda has started faith and light communities.

This message spoke to me in a way of the Lord in our callings. Sometimes when one is called one always feels I cannot possibly do the role I don't have the gift, talents, time and I'm far too busy. But when the Lord does CALL He makes what seems totally impossible possible.

I believe the way Kirt has shared about Lebanon and Syria speaks volumes.

May I remind you that Mission is king - Mission in Faith and Light is about impact of awareness and spiritual gift. Do we have awareness of the people around us? What is God creating for us to give? Is it a time of moving further out to share about Faith and Light? If we can work that out, we can know our Mission

May God bless you and all your communities this Holy week. Let us remember the true message of Easter. Jesus dying on the cross for each and everyone of us.

Let us keep each other close as we walk in our way this Holy week.

Lots of love
Ann xx
